Abstract

It should not exceed 300 words and should include these sections:

Introduction

Including background information on the topic being discussed. The introduction should also state the scope and the importance of the research.

Methodology

Describing the utilized models or approaches in the research.

Results

Describing the specific data indicating the main results of the research.

Conclusion and Discussion

Describing observations that can be directly or indirectly drawn from the obtained results. Adding the evaluation of the research, the inference, applications, or implications of the research for further research.

Keywords: 3-5 keywords related to the research should be added
